CPL
CHEMISTRY AND PHYSICS OF LIPIDS

Volume contents

Volume 87 (1997)

J.M. Boggs, G. Rangaraj (Canada) *Greater partitioning of small spin labels into interdigitated than into non-interdigitated gel phase bilayers* 1

O. Tirosh, R. Kohen, J. Katzhendler, A. Alon, Y. Barenholz (Israel) *Oxidative stress effect on the integrity of lipid bilayers is modulated by cholesterol level of bilayers* 17

T. Paukku, S. Lauraeus, I. Huhtaniemi, P.K.J. Kinnunen (Finland) *Novel cationic liposomes for DNA-transfection with high efficiency and low toxicity* 23

H. Brachwitz, Y. Thomas, J. Bergmann, P. Langen, W.E. Berdel (Germany) *New nucleoside-5′-alkylphosphonophosphates and related compounds containing 2′-deoxycytidine, thymidine and adenosine as nucleoside component. Syntheses and their effects on tumor cell growth in vitro* 31

Q. Cheng, R.C. Stevens (USA) *Monolayer properties of monosialioganglioside in the mixed diacetylene lipid films on the air/water interface* 41

M.S.F. Lie Ken Jie, S.H. Chau (Hong Kong) *Synthesis and nuclear magnetic resonance spectroscopic properties of some acetylenic tellura fatty acid esters* 55

M. Brandl, M. Drechsler, D. Bachmann, K.-H. Bauer (Germany) *Morphology of semisolid aqueous phosphatidylcholine dispersions, a freeze fracture electron microscopy study* 65

J. Kruk, M. Jemioła-Rzemińska, K. Strzałka (Poland) *Plastoquinol and α-tocopherol quinol are more active than ubiquinol and α-tocopherol in inhibition of lipid peroxidation* 73

W. Jira, G. Spiteller, A. Richter (Germany) *Increased levels of lipid oxidation products in low density lipoproteins of patients suffering from rheumatoid arthritis* 81

S. Chierici, P. Boullanger, L. Marron-Brignone, R.M. Morelis, P.R. Coulet (France) *Synthesis and interfacial behaviour of a gemini neoglycolipid* 91

P.C. Schmid, T. Kuwae, R.J. Krebsbach, H.H.O. Schmid (USA, Japan) *Anandamide and other N-acylethanolamines in mouse peritoneal macrophages* 103

C. Wolf, C. Chachaty, H. Takahashi, I. Hatta, P.J. Quinn (France, Japan, UK) *Phase transition sequence between fluid liquid-crystalline and interdigitated lamellar gel phases in mixed-chain diacyl phosphatidylcholine* 111

M. Kveder, G. Pifat, S. Pečar, M. Schara, P. Ramos, H. Esterbauer (Croatia, Slovenia, Austria) *The interaction of lower alcohols with apoB in spin labeled human plasma low density lipoproteins (LDL)* . 125

G. Dobson, W.W. Christie, J.L. Sebedio (UK, France) *Saturated bicyclic fatty acids formed in heated sunflower oils* 137

A. Batna, C. Fuchs, G. Spiteller (Germany) *Lipid peroxidation in presence of ebselen* 149

A. de la Maza, J.L. Parra (Spain) *Solubilization of liposomes formed by lipids modeling the stratum corneum caused by alkyl pyridinium surfactants* 159

Short Communication

Á. Nyilas (Sweden) *A new protecting group: 9-fluorenylmethoxycarbonyl (FMOC) in the synthesis of 1,2-diacylglycerols* 171
